

200W rural solar energy subsidy

Should wind and solar subsidies be double this year?

According to an analysis by Cornwall Insight, an energy consultancy, subsidies to the developers of wind and solar over the next two years need to be at least double this year's record level if the government is to reach its clean power goal by the end of the decade. The London Times reports:

Why are governments putting trillions into wind & solar subsidies?

Governments, especially in the West, are pouring trillions into subsidies for wind and solar despite their hidden costs, raising consumer costs and undermining economies.
