

## 65W solar all-in-one light

What is an all-in-one LED street light?

All-In-One LED Solar Street Lights a complete integrated fixture, including a LiFePO battery, MPPT charge controller, and monocrystalline solar panel.

What is a solar street light?

All in one solar street lights integrate a monocrystalline solar panel, Phillips 5050 LED chips, and a long life LiFePo4 battery into a compact, reliable, and extremely bright package. This solar all in one street light, and solar parking lot light is an alternative to traditional solar lighting system design.

What are the standard features of a solar light?

Standard features are a standard dusk-to-dawn solar lighting option without dimming, optional adjustable timed control mode, and motion-activated human body sensor mode via our dual sensor technology. The time control mode includes an all-night sensor mode and a morning mode.
