

# Australia PV combiner box purchase

What are the different types of PV combiner box?

VRM offers different types of Solar PV Combiner Boxes based on customer requirement. They deal in Array Junction Boxes, string Combiner Boxes, and string Combiner Boxes. The Solar PV Combiner Box is customized based on the input leads from the Solar PV Module and the output lead either to an inverter or a Main Junction Box (MJB).

Why should you choose a combiner box for your PV system?

So, there would be no numerous or long pieces of wires. Apart from that, combiner boxes offer extra protection to your PV system. They come with surge protectors, which protect your inverter from overcurrent and overload. Then they may also come with anti-backflow diodes, which ensure that the battery does not lose charge over time.

How are PV DC combiner boxes tested?

PV DC combiner boxes are tested according to IEC-61439-2 and are constructed on the basis of the test results as well as assembled for the specific application. This ensures that each of the requirements of the target application is fully met. Do you have any questions?

What is a string combiner box?

String combiner box provides functions of combining circuit and surge protection between PV modules and inverters. With optional monitoring module, it could upload and monitor the status of current, voltage, switch and SPD. Electrical data is displayed by LED and transferred by the means of RS485.

Where can I buy electrical supplies in Australia?

Tradezone is Australia's Largest Online Electrical Wholesaler. We stock all major suppliers including Clipsal, Hager, NHP at Unbeatable Trade Prices with FAST Delivery. Live stock availability on 13,000+ products. Cable, Solar, Powerpoints, Switches, LED Lighting, Air Conditioning and much more.
