

Container outdoor power supply warranty period

How long is the warranty on the power supplies?

These products come with a 10 Year Product Warranty and a 25 Year Linear Power Warranty. TSM-PE15H 340-355W products have a silver frame and are EU-28 WEEE compliant. The recyclable packaging is also a part of this offer.

Should reefer containers be protected from power surges?

Reefer containers should also be protected from potential power surges. The reefer machinery includes fuses that help protect the fans, components and internal circuits in the event of electrical power surges. However, these protections do not eliminate the requirement for protection from a power surge at the power source.

What if a claim is out of warranty?

6.1 If the cause of failure is confirmed to be out of warranty by the On-site Report or Recovery Report, the claimant shall be responsible to pay for the associated expenses incurred, including the service fees, travel disbursements, freight and material fees.
