

# Empty battery cabinet reserved power supply

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What happens if a UPS battery is returned to APC?

All old units, including hazardous UPS batteries, returned to APC will then be properly and ecologically disposed of according to Environmental Protection Agency standards (a \$5 to \$500 value depending on the UPS). Trading In a Single UPS: Customers can trade in a UPS, for a new UPS, up to four times the VA rating of the UPS being traded in.
