

Energy storage prices in Bosnia and Herzegovina

What is the energy mix in Bosnia & Herzegovina (BiH)?

The energy mix is dominated by lignite(52% in 2022). Energy consumption has declined slightly since 2018. There are many power and gas interconnection projects with Croatia, Serbia, and Montenegro. Bosnia and Herzegovina (BiH) is a Balkan country that became independent from Yugoslavia in 1992.

Are gas prices regulated in Bosnia & Herzegovina?

Bosnia and Herzegovina has a foreclosed gas market, organised in two parallel entity gas markets, with two dominant whole-sale suppliers, one for each entity. Republika Srpska's wholesale market prices are not regulated, while in Federation of Bosnia and Herzegovina wholesale prices are determined by the entity government.

Why is Bosnia & Herzegovina's energy sector so vulnerable?

This delay persists despite the ENTSO-E cybersecurity report from 2022, which identified Bosnia and Herzegovina's energy sector as one of the most vulnerable in the region due to outdated infrastructure and insufficient cybersecurity investments.

How many companies operate the gas Trans-mission system in Bosnia and Herzegovina?

Three companies in Bosnia Herzegovina operate the gas trans-mission system. In the Federation of Bosnia and Herzegovina, one company operates the transmission network as an exclusive and sole task in line with the Decree on Organisation and Regulation of the Gas Sector, but there is no legal basis for unbundling under the Third Energy Package.

Is there a peci project in Bosnia and Herzegovina?

There is no PECI project in the territory of Bosnia and Herzegovina, chosen under the procedure launched in 2024 for the Energy Community which relates to gas or hydrogen.
