

French energy storage projects 2025

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

Which battery energy storage system will be fully operational in 2025?

Harmony Energy, a leader in battery energy storage across Europe, has begun the construction of the Cheviré Battery Energy Storage System (BESS) in Nantes, which is expected to be fully operational by winter 2025.

Is France a key market for Envision Energy?

Henry Peng, Senior Vice President and President of Latin America and European Region, Envision Energy, stated: "France is a key market for Envision Energy as we expand our presence across Europe, and our partnership with Kallista Energy marks a significant milestone in this journey."

Beginning construction in June 2025, Envision Energy will supply a minimum of a 14-year long-term maintenance (LTSA) agreement, providing continuous presence in the ...
