

Georgia Energy Storage Industry Planning Project

What is Georgia Power's long-term integrated resource planning process?

ystem and help meet customers' evolving energy needs. With the Commission's constructive oversight, Georgia Power's long-term integrated resource planning process - and specifically, the requests set forth in this 2025 IRP - will help ensure the Company can continue to reliably and economically meet the electric energy needs of i

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

Who sanctioned battery energy storage systems in Georgia?

The systems are sanctioned by the Georgia Public Service Commissionthrough the Integrated Resource Plan. Credit: Georgia Power. US-based electric utility Georgia Power has commenced construction of new battery energy storage systems (BESS) across the state of Georgia,totalling 765MW capacity.

What is the Georgia Power Company Integrated Resource Plan Update 2023?

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes an Application for Certification for four battery energy storage systems totaling 500 MW.

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sitestotaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

Where can I find information about Georgia Power's long-term energy strategy?

For more information about the IRP and Georgia Power's long-term energy strategy, visit The Source: Georgia Power, a Southern Company, provided the details for this article. Georgia Power's 2025 Integrated Resource Plan emphasizes reliability, affordability, and cleaner energy sources.

Explore Georgia Power"s battery energy storage construction, enhancing renewable energy supply and reliability across Georgia.

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by economic growth and evolving grid ...

Georgia Energy Storage Industry Planning Project

Georgia Power is seeking expedited PSC approval of the BESS portfolio, put forward by the utility to address 2026/27 winter resource ...

Lost in transition? How to navigate the energy transition with practical, profitable, predictable and people-centric strategies to achieve net zero Explore further

Georgia"s Construction Boom: Major Battery Projects Underway Georgia Power Announces Construction of New Battery Energy Storage Facilities Georgia ...

ystem and help meet customers" evolving energy needs. With the Commission"s constructive oversight, Georgia Power"s long-term integrated resource planning process - and specifically, ...

The plan aims to expand renewable energy capacity by procuring up to 4,000 MW by 2035 and integrating over 1,500 MW of battery energy ...

Georgia Power identifies sites for 500 MW of new battery energy storage systems to enhance grid stability and manage peak demand, leveraging existing infrastructure to ...

From coal plant conversions to solar co-location, Georgia Power's battery strategy highlights the evolving role of storage in utility-scale energy planning.

Georgia is on track to deploy more than 1GW/4GWh of utility-scale storage by 2027, outpacing every other Southeastern state. Driven by ...

Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public ...

WASHINGTON, D.C., April 29, 2025 - Today the American Clean Power Association (ACP), on behalf of the U.S. energy storage industry, announced ...

Georgia State Solar Overview Georgia"s solar and storage market has taken off in recent years, landing it a top spot in SEIA"s national solar rankings. During the 2024 session, an industry ...

Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic counties across the ...

Georgia Power has secured \$160m from the US Department of Energy (DOE) to bolster the resilience and efficiency of Georgia's power grid. ...
