Georgia Smart PV Panel Prices

How much do solar panels cost in Georgia?

As of October 2024,the average solar panel system costs $2.63/Wincluding installation in Georgia. For a 5 kW installation,this comes out to about $13,173 before incentives,though prices range from $11,197 to $15,149. After the federal tax credit,the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Georgia?

While a 5 kW system will only cost you $13,173in Georgia,doubling the system size effectively doubles the price,so you'll pay about twice that for a 10 kW system. The higher the price tag,though,the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Georgia?

Are solar panels a good investment in Georgia?

Solar power is blooming in the Peach State. Georgians use more energy every month than most Americans,which means installing solar panels in the area is more beneficialfrom a financial perspective than in most states. However,the high solar panel cost in Georgia can be a deterrent for many homeowners.
