

Huawei Kazakhstan power generation container

What does Huawei do in Kazakhstan?

In Kazakhstan, Huawei is a strategic partner to all telecom operators, providing the latest ICT solutions to transform existing networks to higher performance and quality, focusing on the user experience through intelligent connections.

How Huawei is accelerating Kazakhstan's digitalization process?

Another project is Huawei's active exploration of the application of innovative technologies such as 5G, cloud computing, and artificial intelligence in public services, energy, education, medical care, and transportation to ensure and accelerate Kazakhstan's digitalization process. Powering this progress is the company's presence and expertise.

Why should you choose Huawei for Digital Kazakhstan?

Huawei has been serving the ICT industry in Kazakhstan since 1998. In that time, Huawei has pursued the "in Kazakhstan, for Kazakhstan" vision through the dedicated work of its employees and local partners. Consequently, Huawei has initiated numerous projects to achieve the goals of Digital Kazakhstan.

How many ICT academies are there in Kazakhstan?

To date, Huawei has opened more than 30 ICT Academies in Kazakhstan, training more than 80 qualified teachers, 700 certified students, 3,000 active students, and 3,000 participants in Huawei ICT Competition.

Discover Huawei's innovative solutions for intelligent power generation that use smart AI, Big Data, and Cloud to build intelligent power plants.

New data centers that are diverse, ubiquitous, secure, and smart, and support zero carbon, energy saving, flexible resources, peer-to-peer, and SysMoore ...

During the "Central Asia - China: Energy" forum held in Astana, Kazakhstan's Ministry of Energy signed several strategic agreements with major Chinese companies and ...

"In Kazakhstan, we plan to connect BESS systems with a total capacity of 1.5 GW to the automatic frequency and power regulation system. ...

"In Kazakhstan, we plan to connect BESS systems with a total capacity of 1.5 GW to the automatic frequency and power regulation system. Pilot projects, such as the installation ...

By widely applying the Smart Renewable Energy Generator and digital technologies, Huawei Digital Power aims to build high-quality, all-digital, ...

Huawei Kazakhstan power generation container

As a solution, Qazaq Green and Huawei Technologies Kazakhstan presented the results of the first phase of the development of the White Paper on the potential of a battery ...

To solve the troubles, Huawei launched CloudPower IDS1000 container data center, which highly integrated power supply and distribution system, environmental monitoring, cooling systems, ...

Power-M works as an all-in-one energy supplier to fight off blackouts with power generation, energy storage, and seamless switchover in ...

A power purchase agreement was signed with China Energy Overseas Investment to supply electricity from the Sauran solar power plant in the Turkistan Region, which includes ...

A power purchase agreement was signed with China Energy Overseas Investment to supply electricity from the Sauran solar power plant in ...

As a solution, Qazaq Green and Huawei Technologies Kazakhstan presented the results of the first phase of the development of the ...

In that time, Huawei has pursued the "in Kazakhstan, for Kazakhstan" vision through the dedicated work of its employees and local partners. Consequently, Huawei has initiated ...

Huawei Digital Power's Smart String Grid-Forming ESS Platform received the Innovation Award for its outstanding performance in architecture, ...

On August 6, Gartner released the Magic Quadrant for Container Management 2025, positioning Huawei in the Leaders quadrant. This recognition is attributed to Huawei ...
