

India power generation container customization

What are mobile & containerized substations?

Versatile Mobile & Containerized Substations for Rapid Deployment. E-Houses: Compact, Modular, and Efficient Power Solutions for Any Terrain. Mobile Substations are fully integrated, transportable power solutions mounted on trailers or skids, designed for temporary or emergency power supply.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Are BESS containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative. These modular, pre-engineered containers are ideal for managing and storing electrical energy efficiently. Designed for seamless deployment across solar, wind, and backup energy systems, they ensure grid reliability and emergency readiness.

Why is standardisation of containers important?

The standardisation of containers has helped increase efficiency and economies of scale when transporting the Goods. We have placed a remarkable position in the industry by endlessly supplying and trading a highly functional range of Truck Mounted Containers.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 / 3 / 4 containers.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...
