

India's latest 5G base station

How many 5G base stations are there in India?

India had 469,000 5G base stations at the end of February, according to the latest available figures from the country's Ministry of Communications. The ministry said the number of active 5G subscribers in the country surpassed 250 million in the period - in less than two and a half years since 5G was commercially launched.

Does India have 5G?

The Indian government has reckoned 5G coverage now extends to all states and 99.6 percent of districts nationwide. India had 469,000 5G base stations at the end of February, according to the latest available figures from the country's Ministry of Communications.

How many 5G BTS were deployed in India in April 2024?

India witnessed the deployment of 6,696 5G Base Transceiver Stations (BTS) across various states and union territories (UTs) during April 2024. The total number of 5G BTS deployed in India surged from 435,720 to 442,416 during the month. Bihar recorded an addition of 864 BTS in April 2024.

Why are 5G base stations reducing in India?

Recent data highlights a significant reduction in quarterly 5G base station additions by Reliance Jio and Bharti Airtel. The decreased rollout of 5G sites is leading to slower revenue growth for tower companies like Indus, as India's top telcos have nearly completed their 5G rollouts and 4G network expansions.

How many 5G sites will Vodafone Idea deploy in India?

Vodafone Idea plans to deploy 10,000 5G sites across 17 service areas in the current fiscal year - ending March 31, and an additional 12,000 in fiscal 2026. Vodafone Idea said it will continue with the deployment of 5G technology in India in a phased manner. The carrier had been carrying out 5G trials in various telecom circles across the country.

Does Bharti Airtel offer 5G?

It said 5G coverage now extends to all states and 99.6% of districts nationwide. Indian operators Reliance Jio and Bharti Airtel have started their 5G rollouts in October 2022. Currently, both Bharti Airtel and Reliance Jio Infocomm offer 5G networks in all major cities across the country.
