

Installing solar power for home use in the UAE

Should you buy a solar power home in Dubai?

That said, there are certain technicalities to consider before going for a solar power home in Dubai. It's quite obvious that only owners of villas in Dubai can currently use solar energy. The roof orientation, shading and surface area determine whether you can efficiently generate solar power.

How much does a solar system cost in Dubai?

Unfortunately, there is no concrete price tag to turning your Dubai home solar at the moment. The cost depends on a number of factors including the size of the system, the system manufacturer, retailer, and installer. According to DEWA, between 30-50% of the total installation cost is for the PV modules.

How does Dubai home solar work?

It works with the use of a Photovoltaic (PV) system that uses cells made up of semiconductors to convert sunlight into electricity. Turning your Dubai home solar with DEWA involves several steps to install the solar panels. Setting this up does require an initial investment, but over time solar is cheaper than traditional energy sources.

Are solar panels a good investment in Dubai?

Using solar panels in Dubai increases the valuation of your property. So if you want to sell in future, chances are high that you are going to make a better deal than your old-fashioned neighbour! And don't forget that if you are a solar homeowner in Dubai, your selling prices are bound to go up.

Can you use solar energy on a villa in Dubai?

It's quite obvious that only owners of villas in Dubai can currently use solar energy. The roof orientation, shading and surface area determine whether you can efficiently generate solar power. They are also factors in choosing the size and type of equipment.

How long does it take to install solar panels in Dubai?

The process to add could take anything between a few weeks to several months depending on the size and capacity of the solar equipment in Dubai. First, you have to hire one of the DEWA approved Electrical and DRRG Solar PV Consultants or Contractors. You can find this list on the DEWA website.
