

# Large-scale energy storage projects in Italy

What is the 2.3 GW battery storage project in Italy?

Also underpinning the 2.3 GW battery storage projects across Northern and Southern Italy is renewable energy security. The project, as put in official project partnership communication, will enable "it [Italy] meet its 2030 renewable energy targets, decarbonising the power system whilst ensuring security of supply".

How many battery energy storage systems will be built in Campania & Basilicata?

The Ministry has officially approved another 198 MW of battery energy storage systems (BESS), according to its latest announcement. The Ministry of the Environment and Energy Security (MASE) has published decrees for the construction of three new BESS with a total capacity of 198 MW in Campania and Basilicata.

Does Italy need 9GW/71GWh of energy storage?

Italy's TSO Terna says it needs 9GW/71GWh of energy storage by integrate its renewables pipeline. Image: Terna. The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

Will Italy get a state aid scheme for energy storage?

The European Union Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

What technologies can be used for energy storage?

Eligible technologies Terna has outlined are primarily lithium-ion, PHES, compressed air energy storage (CAES), non-lithium electrochemical storage (other types of batteries etc), power-to-gas-to power storage (green hydrogen etc), electrostatic or magnetic storage and electromechanical flywheel storage.

How long will a pumped hydro energy storage project last?

That duration will be split between battery energy storage system (BESS) and select pumped hydro energy storage (PHES) projects, though even on the BESS side developers have been touting portfolios with durations up to 8 hours.

The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual payments covering investment and operating costs for those developing, building and operating large ...

The partnership will jointly develop the pipeline of large-scale stand-alone battery projects across both Northern and Southern Italy COPENHAGEN, Denmark, March 26, 2025 ...

Between August 7 and 11, 2025, Italy's Ministry of Environment and Energy Security (MASE) gave the green light to six large-scale battery storage projects located in Lazio, Campania, ...

# Large-scale energy storage projects in Italy

The energy minister of Italy has signed a decree paving the way for an energy storage capacity auction to kick off in the first half of 2025.

Poised to overtake Germany in newly installed BESS systems by the end of 2024, Italy's progress is fueled by significant photovoltaic (PV) installations -- 3.3 GW in H1 2024 alone -- and the ...

Copenhagen Infrastructure Partners (CIP) has entered into a partnership with GC Storage Services (GCSS) to jointly develop a 2.3-GW ...

The scheme totalling EUR17.7 billion (US\$19.5 billion) will provide annual payments covering investment and operating costs for those ...

In November last year, Kyon received approval for a large-scale battery storage project in Alfeld (Leine), Lower Saxony - the 137.5MW / ...

Recently, Jinko ESS has successfully won two 5MWh grid-scale energy storage projects in Italy, marking its official entry into the Italian large-scale storage market.

Aura Power is developing over 1GW of battery storage projects in Italy, it said. Image: Aura Power. UK-based Aura Power has announced the ...

Danish-based renewable energy investor, Copenhagen Infrastructure Partners (CIP), shakes hands over a 2.3 GW pipeline of battery storage (BESS) projects across ...

2 days ago&#0183; Zelestra and BKW have signed an innovative long-term tolling agreement that enables the delivery of one of Europe's largest battery energy storage systems (BESS), of up ...

1 day ago&#0183; Zelestra, a global, multi-technology, customer-focused renewable energy company, has signed a long-term tolling agreement with BKW, a leading energy and infrastructure ...

The European Commission has given its approval for a support initiative aimed at funding extensive energy storage projects in Italy. These projects are intended to have a ...

NHOA's recently completed 107MWh BESS in Gaungdong province, China. Image: NHOA. Energy storage system integrator NHOA has ...

The largest, 120 MW project will be built in the municipality of Ceprano. In August, more than 1 GW of battery energy storage systems (BESS) were approved.

# Large-scale energy storage projects in Italy

According to data released last week by Italian solar energy association Italia Solare, Italy's independent energy storage installations surged in the first half of 2024, with a ...

By implementing large-scale electricity storage facilities, the Italian scheme aspires to reduce energy reliance on fossil fuels and foster a resilient grid, prepared to handle ...

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to ...

The fleet of energy storage projects in Europe, including both pumped hydro and battery energy storage systems of all sizes, is expanding rapidly. This growth is set to continue ...

With the first auctions for procuring new storage capacity in Italy expected in the second quarter of 2025, Aurora Energy Research has analyzed the internal rate of return for ...

2 days ago; Zelestra, a global, multi-technology, customer-focused renewable energy company, has signed a long-term tolling agreement with BKW, a leading energy and infrastructure ...

By implementing large-scale electricity storage facilities, the Italian scheme aspires to reduce energy reliance on fossil fuels and foster a resilient ...
