### New energy storage project in Romania

Who can participate in a new energy storage project in Romania?

Eligible participants include Romanian economic operators- micro-enterprises,SMEs,large companies,newly established entities,and public institutions. The projects must focus on building new energy storage capacities in Romania," the minister stated.

Will Romania add energy storage to its solar PV portfolio?

A 70MWh project from DNO and IPP Electrica won a EUR3.4 million grant in September while IPP Econergy told Energy-Storage.news at Solar Media's Energy Storage Summit Central Eastern Europe (CEE) 2024 that it was planning to add energy storage to its large solar PV portfolio in Romania. See recent coverage of the Romanian energy storage market here.

When was the first natural gas storage facility built in Romania?

The first natural gas storage facility in Romania was built in 1958at Ilimbav, Sibiu County. This facility allowed the country to take over seasonal and hourly consumption peaks.

How much money will be invested in Romania's energy sector?

Today,the Minister of Energy,Sebastian Burduja,announced on Facebook that an additional EUR150 millionwill be invested in Romania's energy sector. "I am pleased to announce that the Ministry of Energy is launching a new call for projects financed through the Modernization Fund,aimed at investments in energy storage capacities (batteries).

Is monsson launching a patented energy storage system in Romania?

The firm's 24MWh BESS under construction in Romania, which came online earlier this year. Image: Monsson. IPP and energy trader Monsson has kicked off the environmental permit process for a 2GWh BESS project in Romania, which an executive said will use its own patented energy storage solution.

Which companies are deploying large-scale Bess in Romania?

The company has long-term plans to expand that site to 216MWh of energy storage capacity. Numerous other firms are also deploying large-scale BESS in the country. According to the reports on Monsson's project, Public Power Corp (PPC), Megalodon Storage, AOT Energy and EDPR Romaniaall have projects in the single-digit MW/MWh size.

In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building ...

Simtel signs EPC contract for a 196 MWh storage project as Romania expands grid-scale battery capacity.

In recent years, multinational capital investment in Romania"s new energy sector has grown significantly, and
