#### Photovoltaic energy storage cost budget

Is solar PV battery storage cost-effective?

Generally, batteries with longer lifespan and warranty are more expensive upfront, but may be cost-effective in the long run. While the initial outlay for solar PV battery storage may seem high, there are numerous ways to offset these costs and enhance the affordability of your solar energy system.

How much does a PV system cost?

Our operations and maintenance (O&M) analysis breaks costs into various categories and provides total annualized O&M costs. The MSP results for PV systems (in units of 2022 real USD/kWdc/yr) are \$28.78 (residential), \$39.83 (community solar), and \$16.12 (utility-scale).

How does battery capacity affect solar PV battery storage costs?

The battery's capacity directlyinfluences solar PV battery storage costs. It's the total amount of electricity that a solar battery can store. A battery with high capacity will require a substantial initial investment but it might be necessary depending on your energy requirements.

How much does a PV system cost in 2022?

The current MSP benchmarks for PV systems in 2022 real USD are \$28.78/kWdc/yr(residential),\$39.83/kWdc/yr (community solar),and \$16.12/kWdc/yr (utility-scale,single-axis tracking). For MMP,the current benchmarks are \$30.36/kWdc/yr (residential),\$40.51/kWdc/yr (community solar),and \$16.58/kWdc/yr (utility-scale,single-axis tracking).

Can a solar battery save money?

For solar setups where net metering is available and the electricity grid is reliable, the financial viability of a PV battery can be less compelling. Integrating energy efficiency measures can potentially reduce the size and cost of the battery storage needed.

What makes a PV system a market price?

Market prices can include items such as smaller-market-sharePV systems (e.g.,those with premium efficiency panels), atypical system configurations due to site irregularities (e.g.,additional land grading) or customer preferences (e.g.,pest traps), and specific project requirements (e.g.,unionized labor).
