Who are the authors of solar photovoltaic system cost benchmark 2021?

Feldman,David,Vignesh Ramasamy,Ran Fu,Ashwin Ramdas,Jal Desai, and Robert Margolis. 2021. U.S. Solar Photovoltaic System Cost Benchmark: Q1 2020. Golden,CO: National Renewable Energy Laboratory. NREL/TP-6A20-77324.

How much does a PV system cost?

For instance, if the battery-based inverter fails to operate, the PV system could operate independently as long as the grid is up. Total System Cost = $\$311.28*P + \$300.24*P*H$ with an R squared value of 99.8. PV (100-MWDC) and storage (60-MWD/AC/240-MWhUsable, 4-hour-duration) systems sited in different locations (\$179 million).

How does colocating a PV & storage system save money?

Colocating the PV and storage subsystems produces cost savings by reducing costs related to site preparation; land acquisition; permitting and interconnection; installation; labor; hardware (via sharing of hardware such as switchgears, transformers, and controls); overhead; and profit.

How much does PV-plus-storage cost reduce in 2021?

Figure ES-3 shows approximately 6% and 3% reductions in residential PV-plus-storage benchmark between 2020 and 2021 for DC-coupled and AC-coupled cases respectively. Most of these reductions can be attributed to reductions in the cost of PV modules and battery packs.

What is storage NPV in terms of kWh?

The storage NPV in terms of kWh has to factor in degradation, round-trip efficiency, lifetime, and all the non-ideal factors of the battery. The combination of these factors is simply the storage discount rate. The financial NPV in financial terms has to include the storage NPV, inflation, rising energy prices, and cost of debt.

Is energy storage a good investment?

The return of investment is an important metric about how attractive an investment may be. However this is an important note that energy storage usually does not generate electricity savings directly, but allows the transport or trading of electricity. This usually results in storage not having a high ROI like solar investments, for example.
