

# Portable power bank usage

What is a portable power bank?

A portable power bank is a battery with a special case and a circuit that controls power flow. Just like a bank account, it allows you to store electrical energy and use it later to charge your device.

What devices can a power bank charge?

A Power Bank can be used to charge smartphones, tablets, earphones, smartwatches and other mobile devices. Ranging in size from slim, pocket-sized devices up to larger, higher-capacity Power Banks, they are portable chargers designed to recharge your electronic devices when you're on the move.

What is a power bank and how does it work?

A power bank is a portable device that stores electrical energy and allows you to charge your devices later. Similar to a bank account, you can deposit energy into a power bank and withdraw it when needed. Before exploring the different types of power banks, let's understand the power measurement unit used in these devices, mAh.

How often can I Charge my Device with a power bank?

To estimate how many times you can charge your device with a power bank, use this rule of thumb: divide the power bank's capacity by your device's battery capacity. For example, if your power bank has a 10,000mAh capacity and your phone has a 3,000mAh battery, you can charge it approximately 3.3 times.

How many charges does a power bank last?

To calculate the approximate number of charges, you must first know the capacity of both the power bank and the battery in your phone. For example, if you have a 10,000mAh power bank and your phone's battery capacity is 2,500mAh, you can anticipate the power bank to last roughly four full charges before it has to be refilled.

How do you charge a power bank?

To charge and use a power bank, you simply charge it up by plugging it into an electrical outlet, and then connect your electronic device to the power bank via a USB cable after charging of the power bank is done.

To easily calculate how often your device can approx. be charged with one full charge of a certain Power Bank you can use this rule of thumb: How often can ...
