

Quote for a smart solar system in Namibia

Is Namibia a good place to install solar power?

With these conditions, Namibia has a huge potential for installing solar water heaters, solar photovoltaic (PV) systems, and concentrated solar power (CSP) plants. Namibia's most common PV technology application is solar PV-based pumping, which is mainly used in cattle farms.

How will solar power benefit Namibia?

The generation of solar power will complement Namibia's available green energy portfolio, such as hydro-electricity, which already constitutes more than two-thirds of our installed power capacity. Electrifying key parts of our economy and of our neighbours will spur unprecedented economic activity and growth for Namibia and Southern Africa.

Who has installed a rooftop solar system at Namaqua North meat wholesalers?

As the EPC contractor for this transformative project, HOPSOL Africa is proud to have a 59.36 kWp rooftop solar system successfully installed at Namaqua North Meat Wholesalers, one of the leading meat wholesalers in Namibia.
