

Tunisia signs two agreements with foreign companies for the construction of solar power plants in Sidi Bouzid and Tozeur. These projects are part of the ...

Tunisia energy storage power station Tunisia is planning to embrace pumped storage, considered the most mature of the stationary energy storage technologies, but also the most expensive. A ...

Headquartered in Dubai, AMEA Power is a developer, owner and operator of renewable energy projects. As one of the fastest growing renewable energy companies in the ...

solar PV and wind together accounting for nearly 70%. The integration of these variable energy sources into national energy grids will largely depend on storage technologies, and among ...

The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy ...

Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023. Moreover, in ...

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shabb, has approved four solar projects with a combined capacity of 500 MW Battery Energy Storage ...

The World Bank has launched a call for interested consultants to conduct a technical study for a 350 MW to 400 MW solar and battery storage project in Tunisia.

Scatec has signed a 25-year power purchase agreement with STEG for a 120 MW solar project, strengthening its presence in Tunisia and cooperation with Japan's Toyota Tsusho Group.

Scatec is engaging with financial institutions to secure debt financing for the project. Credit: Scatec. Renewable energy solutions provider ...

Nestled in Tunisia's sun-drenched Sousse region, the Sousse Photovoltaic Energy Storage Power Station stands as a game-changer. Imagine solar panels dancing with advanced batteries - ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its investments in wind, solar, ...

Tunisia is planning to develop a 130 megawatts (MW) solar power plant in Gabès Governorate in the south east, with construction scheduled to start in early 2026, a local ...

Tunisia's Ministry of Industry, Mines and Energy has launched a tender for the construction of several large-scale PV projects with a combined capacity of 200 MW. The ...

The EBRD and Proparco are financing two 60 MW solar power plants in Tunisia, developed by Scatec and Aeolus-Toyota Tsusho Group, to boost renewable energy production ...

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair International, Voltalia, ...

This analysis provides valuable insights for stakeholders considering similar projects, including the costs associated with photovoltaic systems, electrolyzers, and hydrogen ...

Green Power Company, leader in photovoltaics in Tunisia since 2013, meets the needs of individuals and professionals in renewable energies.

Paris & Tunis, March 24, 2025 - Qair, an independent renewable energy company, has signed power purchase agreements and concession contracts with the Tunisian government for the ...

First utility-scale photovoltaic plant (10 MW, in Tozeur) was commissioned in 2019 on German money. Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The ...

This landmark project will be the first large-scale privately financed grid-connected solar independent power producer in the country and will support the government of Tunisia's ...

Tunisia's Ministry of Industry, Mines and Energy has launched a tender to construct several large-scale PV projects with a combined capacity of 200 MW located at 40 Rue Sidi Elheni ...

AMEA Power, one of the Middle East's leading renewable energy companies, has announced the official launch of the 120 MWp solar photovoltaic project in Kairouan, Tunisia. ...

The Kairouan Solar Project, Tunisia's first large-scale solar initiative, significantly boosts the country's renewable energy capacity by ...

The Tunisian government has granted licenses to four PV projects with a combined capacity of 500 MW. The selected developers are Qair ...
