

# What do pack batteries and CPT mean

What is the CPT code for hearing aid batteries?

The most appropriate code for hearing aid batteries is the HCPCS code V5266 (Battery for use in hearing aid). Given that this code is singular, you would have to indicate the number of batteries (units) provided.

Are battery chargers included in the payment for a powered base item?

At the time that a base item is billed, all necessary batteries and/or battery chargers are considered as included in the payment for the powered base item. There is no separate payment for batteries (L7360, L7364, L7367, and L8505) and/or battery chargers (L7362, L7366, L7368) billed concurrently with a powered base item.

Does a spinal cord stimulator battery pack look like a battery replacement?

The surgeon states "revision of spinal cord stimulator battery pack", however it looks like a battery replacement to me. "The battery for the spinal cord stimulator was previously placed on the left flank. We made an incision over the battery utilizing the previous skin incision. We bluntly dissected through the scar tissue onto the battery pack.

Is there a separate payment for battery chargers billed concurrently?

There is no separate payment for batteries (L7360, L7364, L7367, and L8505) and/or battery chargers (L7362, L7366, L7368) billed concurrently with a powered base item. Payments for items listed in Column II are included in the payment for each Column I code.

Why do medical devices need a battery?

These batteries ensure vital medical devices operate flawlessly, delivering essential care to patients. For example, think of a blood glucose monitor for a diabetic patient; it requires a working battery to function correctly and provide accurate readings.

Can a thoracic implant be inserted into a battery pack?

We disconnected the leads and tested them to ensure that the thoracic implant was functioning. There was no issue with the thoracic implant. We expanded the pocket for the battery pack with blunt dissection. The leads were then engaged into the permanent battery and finally tightened.
